

## Blog 4 Red Bull Ring

Good evening. I will tell you now about my second race today.

I looked the races of the other classes during the day. After the lunch we warmed up the engines again. After this I did a warm up.

After we went to the pit lane. In the two sighting laps I looked at the track conditions and if everything is all right. When I was in the grid, I was cool down and getting ready.

After the warm up lap I was full ready. I had a more or less a good start again. But in the first corner I was not aggressive enough and I lost some places. Then I lost the contact to the group in front of me and I rode more or less all the time alone. Near the end of the race I could overtake one more rider. I finished 18<sup>th</sup> again. I am happy. But I can do it better. Because I am improving myself. My lap time was getting better lap by lap.

So that was my weekend here in Spielberg. I am happy about the weekend but now I will train hard and keep working. See you all soon in Misano. A big thank you to everybody of the Red Bull MotoGP Rookies Cup and my parents.

Have a great time.
