

Blog 3 Red Bull Ring

Good evening. I will tell you about my race today.

During the day I watched the Qualifying's from the other classes. Then after the lunch we warmed up the bikes. After that I did a warm up to get ready for the race. After I put on my suit.

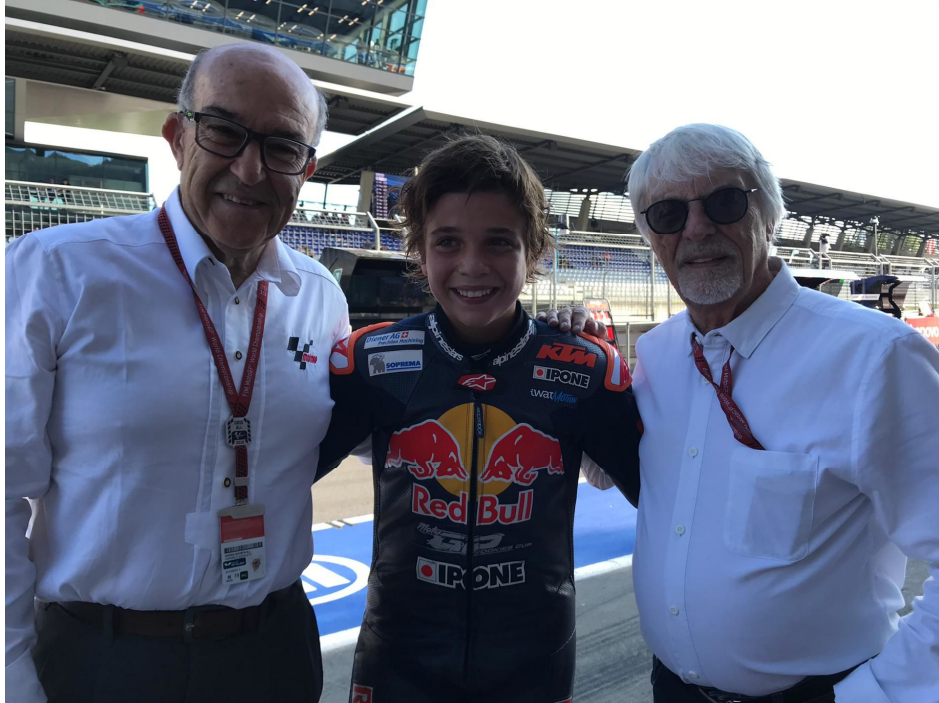

Later we went to the pit lane. I did like always two sighting laps to check everything. On the grid I was fully concentrated. After the warm up lap everyone was ready to go. I had a good start. In corner 3 I was too much in the outside and some riders passed me. After that I had good fights. I was riding very good lap times. I crossed the finish line at 18th position. Only a few hundredths behind the points.

I am happy about the result because I improved my time and I am getting more near to the points. And I know that I can. After the race when I came to the pit lane, Gino Rea came to say hello.

In the pit lane before we went back to the Rookies tent, I saw Bernie Ecclestone (Formula 1 Boss) and Carmelo Ezpeleta (Dorna Boss). It was nice to meet them.

So that's about my race. Tomorrow is the second race at 15:30 pm. Today was good, but tomorrow more. I will tell you about my race tomorrow evening. Have a great night.
